

Newnham College,  
Cambridge

2 March 1961

Dear Mrs Inan,

Very many thanks for your letter. I am delighted to hear that May 3<sup>rd</sup> 5 p.m. is all right for your lecture; I look forward very much to seeing you again and to giving you hospitality in my spare room here. We have a projector for the such 5 x 5 cm. colour slides, which sound most exciting. If you speak English as well as you write it, you ought to have no difficulty. We do not generally have public discussions after lectures; but I'm sure you will be able to cope, either in English or German, with any questions that individuals may want to put to you privately afterwards. If you could come to Cambridge the day before your lecture, we might have a rehearsal of your paper (or part of it) in our Museum lecture room which is not a very easy one in which to speak. And if you have any photographs of Sida & Perga, other than those in your slides, do bring them with you, as I should be so much interested to see them.

With every good wish for your trip to England,

Yours sincerely

Suzelyn M C Taylor
