Sept 2.

Dear Feza

I had a long phone conversation with Sam Treiman. He, like others, has an open mind about the K_2 business. It is an unusual time in which nobody calls the next man a fool, ~~but~~ ^{as} no one pretends to fathom the situation.

I now believe that Ruzgi, you and I should try to get the induced terms explicitly out and have our stab at the magnetic moment. At any rate, I propose to let cosmology rest till these matters are done.

As ever

Braun.
